

NFPROTO_INET

NFWS 2017 - Faro, Portugal

Pablo Neira Ayuso <pablo@netfilter.org>

NFPROTO_INET

- Only working for nftables
 - Quite a bit of specific infrastructure
 - Just to save a switch in the packet path
- Make it a real family
 - Allow to register hook to NFPROTO_INET
 - Results in two hooks, one for NFPROTO_IPV4 and NFPROTO_IPV6
 - Transparently
 - Could be used in conntrack helpers and other spots
